Fundamentals of Internal Auditing ONLINE

STARTING YOUR CAREER IN INTERNAL AUDITING?

Join us for the Fundamentals of Internal Auditing Online, the most convenient way to build your understanding of the internal audit process and its key aspects.

Internal audit is a dynamic profession that concentrates on helping organisations achieve their objectives. It is concerned with evaluating and improving the effectiveness of risk management, control and governance processes in an organisation.

The **Fundamentals of Internal Auditing Online** course is the best way to understand the key aspects of the internal audit process.

Delivered over four weeks and entirely online, Fundamentals of Internal Auditing online works through ten interactive modules over a total of 18 hours.

Register now for July, August or September

Course Modules

1. What is internal audit? Who are we?
2. Governance, Risk Management and compliance
3. The IPPF
4. Establishing and Managing the Internal Audit Activity
5. Risk-based Auditing
6. Internal Audit Engagement Process – Planning
7. Internal Audit Engagement Process – Evaluating
8. Internal Audit Engagement Process – Testing
9. Internal Audit Engagement Process – Reporting
10. Internal Audit Engagement Process – Follow up

The online environment will feature a mix of self-paced learning, interactive chat forums and access to an expert trainer to guide participants through the entire process of performing an effective internal audit.

Develop a basic understanding of the roles of risk and internal controls in auditing while evolving interpersonal and client relationship skills.

Using the International Professional Practices Framework (IPPF) and industry-leading white papers, learn the foundations of effective internal auditing, as well as cover the roles of risks, internal controls, interpersonal and client relationship skills in auditing.

All materials used (including the IPPF) will be yours to keep for future reference.

This online course uses forums to encourage comprehensive and lively discussion and debate.

Learning Outcomes

› Learn the concepts and terms that are central to internal auditing
› Become familiar with the scope and application of the IPPF
› Understand internal auditing today
› View organisations from an internal auditing perspective
› Perform the work of internal auditing and carry out assignments on value-added audit engagements
› Engage in a risk-based audit approach - planning, process documentation, testing, analysis, and reporting
› Communicate and "sell" internal auditing results
